

TECHNICAL DATA SHEET

Ki-ose[®] 380 SINGLE WIPE

Dual Use Disinfectant and Cleaning Wipe for Hands and Surfaces

DESCRIPTION

Ki-ose[®] 380 Single Wipe is a unique convenient dual use antiseptic cleaning wipe for the disinfection of both hands and surfaces. Dermatologically tested and efficient disinfectant, Ki-ose[®] 380 Single Wipe has been specially designed for use by the cabin crew and passengers during the flight. It is used by cabin attendants for many applications in galleys (surfaces in contact with food), all surfaces on trolleys, in lavatories, and in the cabin, and to sanitise their own hands. Ki-ose[®] 380 Single Wipe will not damage fabrics, plastics, metals, rubber or other surfaces.

Ki-ose[®] 380 Single Wipe can be personalised upon request (color, company logo, label...)

FEATURES & BENEFITS

- Ready to use single sachets
- Non-flammable water-based formulation.
- Wide spectrum cleaner disinfectant for fast hand antisepsis of hands and disinfection of small surfaces and equipment.
- Dermatologically tested, respectful of the skin.
- Fully aircraft approved (Airbus, Boeing, DGA).
- Large crepe paper wipe, 170 x 200 mm
- Gentle floral fragrance.
- Kills 99.99% of most of harmful bacteria, viruses & fungi (see efficacy tests below).
- Manufactured in the EU.
- Wipe material contains no plastics.
- Calculated and Compensated Carbon Footprint.

DIRECTION FOR USE:

- for hands:

- Rub over the whole hands surface and interdigital spaces, with the wipe, for at least 30 seconds. Let it dry. Do not rinse. External use on healthy skin only

- for surfaces and objects:

- Common surfaces: Rub the wipe on surfaces to be cleaned and disinfected. Let it dry. Do not rinse.
- Consumer utensils (cutlery...) and food preparation areas: Rub the wipe on surfaces to be cleaned and disinfected. Let it dry. Rinse with drinkable water.

Use biocides with caution. Before use, read the label and information concerning the product.
