

## TECHNICAL DATA SHEET

### RoxDiesel<sup>®</sup> Water in Fuel Emulsifier *Fuel Treatment (1600)*

Code 8262

#### DESCRIPTION

A concentrated RoxDiesel<sup>®</sup> Water in Fuel Emulsifier, designed to maximize the emulsification effect up to 10 times that of the original product.

Small amounts of water from condensation can cause many problems in fuel. The introduction of water into fuel introduces bacteria and fungi which use the diesel as their food. If left untreated fungi and bacteria will grow rapidly at the water fuel interface, resulting in costly remediation. RoxDiesel<sup>®</sup> Water in Fuel Emulsifier has been formulated to both remove the water condensate into a Nano emulsion as well as provide a powerful diesel treatment.

The diesel treatment will remove & prevent bacteria and fungi growth, remove any varnish and hydrocarbon build up, prevent corrosion and improve lubricity.

Water in fuel emulsions have been implemented as an alternative fuel to reduce NOx emissions and particulate matter significantly.

#### BENEFITS

- Removes water
- Kills & prevents bacteria & fungi growth
- Cleans Injectors and engine components
- Prevents corrosion
- Improves lubricity
- Reduces NOx
- Reduced emissions and particulate matter

#### APPLICATION

The recommended treat rate is **1:500** for the initial first time treatment and 1:1000 for subsequent treatments. Add to fuel tank prior to top up with fuel or by metering pump.

#### SPECIFICATION

Appearance colour : light brown coloured liquid  
Density : 0.89 +/- 0.02  
Transparency : clear

#### HANDLING

Combustible - Do not use near open flame or heat. Keep out of reach of children. Refer to the Material Safety Data sheet for further information.

## TECHNICAL DATA SHEET

### FIRST AID

If swallowed - do NOT induce vomiting. Give a glass of water to drink. Contact a Doctor or Poisons Information Centre.

If in eyes flush with plenty of water for at least 15 minutes. If on skin, wash with soap and water.

Refer to Material Safety Data sheet.

### PACKAGING

Available in 20 litre and 200 litre containers.
