PROTECTION AGAINST VECTOR-BORNE DISEASES

VECTOR-BORNE DISEASES

World Health Organization

DISEASES KILLING 1 MILLION+ PEOPLE EVERY YEAR
WITH JUST 1 BITE

more than half of the world's population is at risk

Countries at risk of Malaria, Zika, Chikungunya, Yellow Fever & Dengue

Countries at low risk

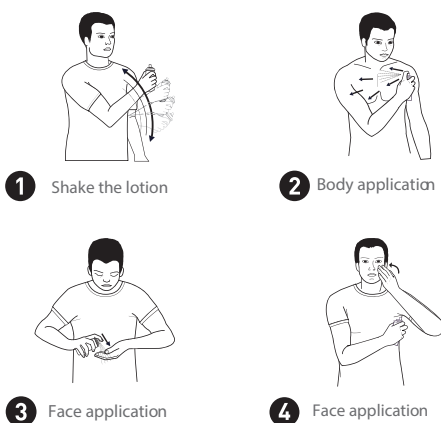

DID YOU KNOW...

Callington Skin2P Body and Screen2P Wear products are effective against Aedes, Anopheles and Culex mosquitos, which are responsible for the transmission of diseases such as Dengue Fever, Yellow Fever, Chikungunya, Zika, Ross River Virus and Malaria.

REPELLENT TO BE SPRAYED ON THE SKIN

- DEET free formulation
- Dermatologically tested
- Provides up to 8 hours protection
- Forms a barrier against mosquitos

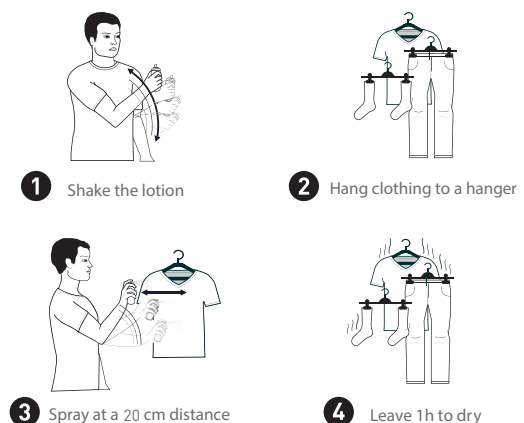

Directions for use: Spray on parts of the body to be protected. For face, spray product on hands before applying. Reapply 2 to 3 times per day if sweating and routinely after each swim.

INSECTICIDE TO BE SPRAYED ON ANY TYPE OF FABRIC

- Prevents mosquitos biting through clothing
- Especially formulated for tropical areas
- Water based non-flammable formulation
- 200ml of product = 4 entire outfits

Directions for use: Spray your clothing before departure for high risks areas. Reapply treatment to clothing every week or up to 5 washes.
